*Hon. Secretary:* Mr James O Dea, Colaiste Dhulaigh, Coolock, Dublin 17. Tel/Fax/Text: 848 5858 E-mail: scc@cdvec.ie

### **New Website Launch!**

The Sports and Cultural Council (SCC) is pleased to announce the launch of our new website and domain name [www.sccdublin.ie](http://www.sccdublin.ie). The new and improved site provides a more comprehensive source of information and news related to SCC activities. The new site features photo galleries, SCC blog, current news section, bursary information, archive section, important links and much more.

Everyone in the SCC shares a passion for sports and culture and a commitment to education. In recent times there was a general consensus that the SCC's previous website was a far cry from reflecting the council's reputation as a progressive organisation.

SCC Chairperson **Ms. Eithne Davey** said: *"The increased importance of e-communications means that it is essential for us to have a website that lets us showcase the achievements of our students, as well as highlighting key news and events from across the network. The clear and dynamic image presented by the site supports and demonstrates the way we want to engage with all our audiences in the future."*

The launch also marks the introduction of a new logo for the SCC. The new logo represents all the different facets of the SCC. Hon. Secretary **Jim O'Dea** said: *"We felt it was an appropriate time in our history to unify both the sports and cultural activities of the SCC under one visual identity."*

With this website we have aimed to create a streamlined online community where students and staff of the CDVEC can gain quick access to important news and events that are happening in their area of interest. Moreover, after 75 years in existence, we felt it was important to create a digital online archive of the SCC activities to date! A fitting tribute to all the tremendous hard work put in by past committee members.

The current site should be viewed as a work in progress. It will be subject to continued development in the coming months and years ahead. We trust that you will find the site informative and enjoyable to use. We welcome your input and feedback, so please contact us.

To help us promote the new website, we would be most grateful if you could bring this launch to the attention of all CDVEC students and staff in your centre. Thank you.
